November 22, 2023

Brothers and Sisters,

I want to let you know some people that I am thankful to have in my life this year. Patricia Byrd I am thankful for your logic and dependable experience you possess. You have touched the lives of so many people that my gratitude cannot be can stressed enough. There is not another that holds themselves accountable more than she does. She is a dedicated Family Lady.

I am thankful to have Kathy Williams in my Life this year. She is one of the most delightfully happy persons I have ever met. Your hard work and sunny and seventy-five personality can cure most people's bad day. Her Family is her Life.

I am thankful to have Wes Stutts in my Life this year. His dependability and versatile skill sets have made it easy to understand why he is where he is today. He takes care of his job and Family with pride.

I am thankful to have Mac Sloan in my life this year. He is one organized Dude and has a personality that people like to be around. He bursts with pride over his Family.

I am thankful to have Roderick Metcalf in my life this year. Roderick has a passion for people, he always is on top of things and a very structured Individual that is never out of place. He Loves his Family.

I am thankful to have Noah Vickers in my life this year. He is always the first one to work, he is cheerful and calm every day. He handles a stressful position as good as anyone and adapts to change well. He is always sharing the love for his Family.

I am thankful to have Josh Hand in my life this year. He is as cool as the other side of the pillow, very dedicated and lots of times my go to guy for logic. He possesses qualities that are too many to describe. He is a devoted Husband and Father.

I am thankful to have the Members of great Local that are easy to represent as we are some of the most highly skilled craftsmen in the world.

I would like to express to all the members how thankful and blessed I have been to have the honor of representing the membership of this fine Local. We all should feel extremely lucky to be able to work under a Collective Bargaining Agreement, belong to a Union and represent our families along with ourselves in a professional manner for a fair day's wages. Our goal is to have a safe workplace where our Brothers and Sisters are treated with dignity and respect while producing a craftsman job by a highly skilled workforce.

I am extremely thankful to have a healthy family that I dearly love. I think sometimes as professional's we lose focus of the importance of Family is in today's extremely fast paced world. We all have to maintain financial balance but it should not be at the cost of our Families. We all want the best for our loved ones that we find ourselves working long hours and enduring stress that we may bring home from work. This can be extremely taxing on us as individuals and our families as well. So, I challenge each of our members to enjoy this Thanksgiving weekend, stop long enough to see how blessed we really are and spend some special time with our loved ones. Life is short but memories can be passed on from generation to generation. So, grab a turkey leg and make some memories!

In Solidarity,

Darrell Miller
